

The African American Chamber of Commerce has acquired the rights and is proud to present a gripping documentary film about a group of black urban entrepreneurs, their creativity and passionate drive to escape hometown poverty and an undying drive to succeed. This real life drama examines the one ingredient that binds all successful entrepreneurs, regardless of race, gender, creed or economic background from Bill Gates, Martha Stewart to Sean Puffy Combs -- "hustle."

The African American Chamber of Commerce is proud to present a true story of drive and determination

In support of Chamber programming and the Center for Teaching Entrepreneurship

# SOLE OF A HUSTLA

**December 6, 2011**

**Milwaukee Art Museum  
700 N. Art Museum Drive, Milwaukee, WI**

*"Sole" follows the relationship of young entrepreneurs and a venture capitalist from its beginning, presenting us with its inherent humor, drama and always entertaining cast of characters. The film examines the essence of "hustle" showing us just how far it can take you and just how far it can't. It is also an examination of urban culture and its often tenuous relationship with the culture of commerce. But in the end, it is a story about friends trying to help one another rise above the status quo and realize a life of pride and dignity that all people willing to hustle deserve.*

**5:30 – 6:30PM Reception**
